Recommended Deadlines

Although enrolments remain open until the start of the programmes, places are limited. It is advisable to complete the enrolment process as early as possible to secure a place, international students are especially advised to apply in advance for their study visa.

1. Admission Interview

The interview aims to:

- Understand the candidate's motivation for pursuing the chosen programme.
- Assess general cultural knowledge, attitude, expectations and knowledge in the relevant field of interest.

The interview is carried out in-person at the IED centre or online.

2. Admission Process

Following the interview, if the candidate decides to proceed, they will receive login credentials to access the IED's online admission platform.
